TESTIMONIAL

When it comes to assembling information and organizing it I am very disorganized and chaotic. Searching for the University that best fits your requirements is a tedious job. **EducationUSA** helped me immensely in the complete application process. Janet mam's advice and intuitions helped me take an informed decision about which universities I should apply. I loved that there is no middle-man, I talked and interacted directly with the core team throughout the process. Janet mam critiqued my essay. I also got to interact with past students and Visa officers from Mumbai explaining the important aspects of Visa interviews. Jaydeep sir and Dhara mam also helped me a lot to make me understand the visa process. I had the most amazing experience and am fully satisfied with their services.
